

AAA at Your School

AAA School Driver Education: The best driving school for your teen

Your local high school has chosen to partner with AAA to offer high quality driver education for your teen. AAA's exclusive curriculum, Licensed to Learn (modified version), provides extensive classroom and in-car instruction to get your teen on the road safely.

So why did your school choose AAA?

- Largest driver education program in New York State
- Exclusive AAA-created driver training content
- High quality instructors
- Exclusive instructor training program
- Reliability and trust in AAA

What will your teen get out of the program?

- High quality classroom and in car training
- MV-285 form (night driving privileges for teens)
- Free one-year basic AAA membership upon completion

Teens that complete the Licensed to Learn program through their school will receive the MV-285 certificate (formerly known as a "blue card") to obtain night driving privileges. You must provide the certificate number when you schedule your road test with the New York State Department of Motor Vehicles and also present the certificate to the examiner on the day of your test.
