Sabrina is an eleven-year old girl who lives on Grand Island. She is a fifth grader at Kaegerbein Elementary School. Sabrina was first diagnosed with Acute Lymphoblastic Leukemia (ALL) in 2002. Sabrina relapsed and received a bone marrow transplant on October 12, 2007. Despite everything that Sabrina has been through, she is an amazingly positive little girl. She finds joy in everything that she does and shares her love for life with everyone around her.
