

## **Vanessa Haynie needs your support!**

Vanessa is a 17 year old high school student who was diagnosed with Lupus on February 22, 2012. She is on over 30 medications a day and after a nasty blood infection that almost took her life, she is receiving peritoneal home dialysis for 10 hours a day. She is not only fighting for her life, but is also feeling the financial burden of this illness. Throughout all her misfortunes, Vanessa's smile and positive attitude have never faltered. We invite you to join us in helping Vanessa and her family
