

Mary Dunbar-Daluisio

Wishes For A Warrior

Mary was diagnosed with Carcinoid Tumors in 2005 and has undergone several procedures at Roswell Park Cancer Institute over the past 11 years. While her current treatment has stabilized the cancer, other complications have arisen which has left her unable to work. She has been an active Warrior for The American Cancer Society for many years and has co-chaired Grand Island's Relay For Life for 10 years. Please come to show your love and share your wishes for this Warrior against cancer.
