Open Interviews for Operators and Filling Operators

Saturday, March 2, 2013

9:00 am – Noon

3159 Staley Road, Grand Island NY

Building 4 Main Entrance

Fresenius Kabi, a manufacturer of critical care injectable pharmaceuticals, is seeking employees for the following positions at our Grand Island Facility:

Operators

These positions consist of running, troubleshooting and adjusting designated high speed pharmaceutical equipment in a controlled environment. Should possess strong mechanical skills. Follows all required SOP's and cGMP's. Some PC skills helpful.

Filling Operators

These positions consist of running, troubleshooting and adjusting designated high speed pharmaceutical equipment in a clean room environment. Should possess strong mechanical skills. Follows all required SOP's and cGMP's. Some PC skills helpful

The ideal candidate for these positions will possess a minimum of a high school diploma or equivalency. Good communication and documentation required. Previous experience in a production environment and able to lift a minimum of 40 lbs. Fresenius Kabi offers a competitive compensation package including a matching 401(k) and health/dental insurance.
