

Charlotte Sidway Elementary Welcomes the Class of 2020!

Many children, along with their parents, had their first taste of an afternoon at school when they attended Kindergarten Orientation on Tuesday, May 15th at Charlotte Sidway Elementary School.

The afternoon began in the gym where parents and “Kinder-Kids” were greeted by faculty and staff members. “Kinder-Kids” were escorted out of the gym while parents remained for a Parent Presentation.

Presentations began with a warm greeting from Superintendent, Mr. Robert Christmann followed by opening remarks from Denise Dunbar, Charlotte Sidway Principal. Parents spent the afternoon learning about a variety of topics including, health related issues, PTA, the “Y” program, looping/inclusion classes, bus safety, and what a typical kindergarten day will be like for their child.

While parents were learning about Kindergarten Life, the children had a chance to experience it. “Kinder-kids” were divided among various classrooms where they spent the afternoon singing, reading, playing and enjoying all that Kindergarten has to offer.

Once presentations were complete, parents picked up their children and headed off together to experience a bus ride. The afternoon ended with the opportunity for families to take an unguided tour of the school – a place they will soon become very familiar with this Fall!

G.I. High School internship students were on hand to assist with orientation.
