

James M. Mulcahy

I have been a homeowner on the Island since 1978 when I bought the house from my dad. We had moved in in 1961. I graduated from: UB - B.A., Economics; Ohio State University - M.A., Economics; and the University of Chicago - MBA, Finance and Accounting.

I spent 45 years doing economic analysis, financial analysis, and risk management in the banking industry and in the energy and utility industries, including being a senior economist with the Public Utilities Commission of Ohio.

I have taught economics and corporate finance part-time at the collegiate and graduate school levels.

Joy (Carrier) LaMarca

I am a currently a Grand Island Board of Education trustee and am seeking re-election.

I am also a parent, attorney and homeowner in the Town of Grand Island and am asking for your vote for one of the open positions on the Grand Island School Board.

While serving on the school board, over the past six (6) years together as a board, we hired our new superintendent, hired new district attorneys and scaled down attorney's fees, settled union and employment contracts, re-instituted the dissemination of flyers for student, community activities and groups as well as all three years of the budget passing among many other progressive actions that benefitted our schools and children.

As a parent, I have an interest our school system and know the decisions made in the next few years will affect my daughter's education. I want to participate in those decisions to work with the other board members, administration, teachers, parents and our community to make our school system the best it can be.

As an attorney, I have been admitted to practice law for over eighteen (18) years and can bring my professional expertise to good use on the school board with compromise, compassion, professionalism, legal experience, and analytical skills to work with others to achieve results.

As a homeowner, I have firm roots in our town and care about my neighbors, community and school system as I experience along with my daughter growing up on Grand Island.

I am endorsed by the Grand Island Teachers Association and I ask for your vote on election day.

Leslie Madigan

A lifelong Islander, Leslie attended Grand Island public schools graduating with the class of '74. GIHS Science teacher Mr. Jewett sparked her interest in Biology resulting in enrollment at Mount Union University (Alliance Ohio), receiving a Bachelor of Science Degree in Biology and a minor in Geology and Psychology. After returning to GI, Leslie applied to and became employed by Grand Island Biological Company (GIBCO) now known as ThermoFisher. She remained with ThermoFisher for 38 years holding various positions within Supply Chain Management until retiring in 2018.

Leslie's professional skills include: Team Building and Value Analysis. She managed all aspects of Supply Side, including spending analysis; contract negotiation and contract execution. Leslie is a past nominee for the Buffalo Athena Award for Outstanding Women. Leslie is married to Mike, they have two sons who both attended and graduated from Grand Island Public Schools.

As a school board member for Grand Island, Leslie looks to improve 2-way communication with the parents and taxpayers. She seeks to deep dive budget considerations with goal of limiting spending at or below the tax cap while ensuring the students have a thorough education providing them the best opportunity for productive, meaningful lives. She will be a new face on the school board because it is time for a change.

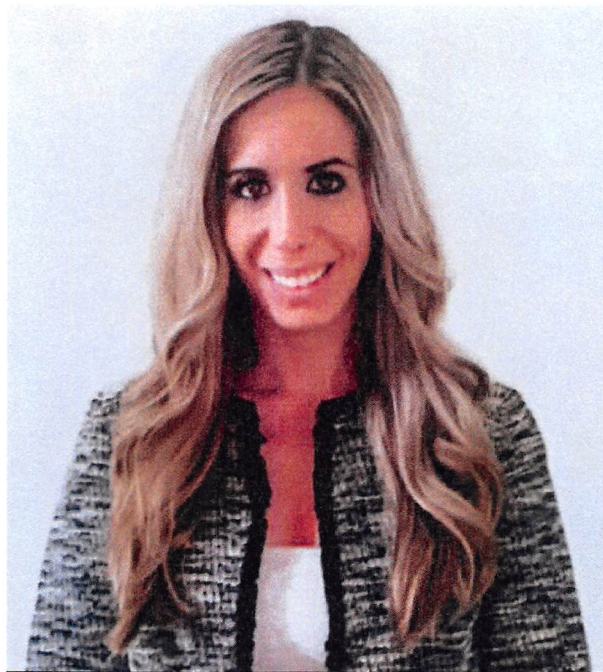

Danielle Bruno

My name is Danielle Bruno; I've been a long term resident of Grand Island, and a graduate of the District. Following High School, I obtained a Bachelor's Degree from the University of Buffalo and a Juris Doctor from Florida Coastal School of Law.

When I was admitted into New York, I first began practice in landlord tenant matters with a focus on deterring homeless rates. I then began practice in personal injury law with a dedication in helping people that are wrongfully injured.

For the past three years, I've volunteered as the Attorney Mock Trial Coach at Grand Island High School. It's been an honor helping the students grow in their knowledge of the adversarial court process along with seeing their aspirations in being future attorneys.

Grand Island is a very special place to me. I purchased a home here not too long ago, and I have a strong desire to be involved in pivotal decisions while supporting the needs of the community, taxpayers, District, faculty/staff, and especially, the students.

Glenn J. Bobeck

Glenn, and his wife Ann, have three children, Aaron 22, Eva 20 and Sophia 16. Ann is a teacher's aide at Jack and Jill Community Preschool. Glenn is a corporate partner at the law firm of Phillips Lytle LLP. His law practice consists primarily of counseling business entities with an emphasis on mergers and acquisitions, public and private securities law, corporate finance and other business relationship issues. He graduated from the State University of New York at Buffalo School of Law in 1992 (J.D.) and the University of Rochester in 1989 (B.A. in statistics and political science). He has served on the Grand Island CSD BOE since 2006.
