FOR IMMEDIATE RELEASE

Private Alzheimer's Care Planning Meetings Available on Grand Island

BUFFALO, NY (June 30, 2016) – Hearing a diagnosis of Alzheimer's disease or other dementia usually opens up a number of questions, rather than providing answers. Those concerns, as well as suggestions to plan for future needs, can be discussed during private care planning meetings with social workers from the Alzheimer's Association Western New York Chapter, who are planning a special consultation program on Grand Island.

The Chapter's dementia care experts will be available at the Golden Age Center (3278 Whitehaven Road) between the hours of 12:30 and 2:30pm on **Monday, August 1, 2016**. Those diagnosed with dementia, their care partners and their families are encouraged to discuss care plans, information about local resources, managing behaviors and overcoming day-to-day challenges.

To ensure ample time and materials for the private meetings, reservations are strongly suggested by calling 1.800.272.3900. For additional information about Alzheimer's disease and other types of dementia, community resources and educational programs, please visit the Chapter website at alz.org/WNY.
