

iMapInvasives Spring Training Workshop

iMapInvasives is an online mapping tool that supports efforts to protect New York State from invasive species. Learn about the program and become trained to contribute data by attending an iMapInvasives training session!

Invasive Species Management for Citizen Scientists and Professionals

WNY PRISM, the Grand Island Conservation Advisory Board, and the iMapInvasives Program are teaming up to provide an invasive species identification and iMapInvasives Training on **Saturday, May 6, 2017**, at the **Grand Island Memorial Library**. Attendees will learn how to identify WNY PRISM priority invasive species and be trained in how to navigate and submit invasive species data into the iMapInvasives online database. Training will provide options for basic and advanced data entry and analysis.

For more information and to register, visit: www.nyimainvasives.org and select **SPRING TRAINING BLITZ!**

Saturday, May 6, 2017
