Live appearance by
"Nate the Great"
Food

5 year old Nathan was born with a life threatening congenital heart disease called hypoplastic left heart syndrome. Nathan had his first surgery at 4 days old and his second surgery at 6 months old. The time has now come for his last surgery. The family will travel to Boston for a bi ventricle repair that will allow his heart to function better and last longer. Please join us in our efforts to support Nathan and his family.

Date: March 1st, 2014
